**Developer Tools:** Git, GitHub, VS Code, Visual Studio

**UI Libraries:** xBesh ui, Shaden ui, Mantine ui, Radix ui

## EXPERIENCE

### Freelance Full Stack Developer

March 2025 - July 2025

*Self-Employed*

*Remote*

- Built travel booking platform using MERN stack with hotel booking, package booking, and automated email notification system.
- Developed responsive React.js frontend with TypeScript, Tailwind CSS, and Express.js RESTful API integration.
- Designed custom logo, preloader animations, cross-browser compatibility, and deployed production-ready web application with mobile-responsive design.

### Jr. Developer Full Stack

August 2024 - February 2025

*xBesh Technologies Private Limited*

*Noida, Uttar Pradesh*

- Developed a full-stack web app using Next.js, Redux, xBesh Components, and TypeScript for scalability.
- Contributed to xBesh's component library, improving UI/UX for 1000+ developers
- Collaborated effectively in a team environment using Git version control

### Web Development (Intern)

July 2023 - August 2023

*Evolve Intern*

*Remote*

- Developed a music player with play, pause, next, back, volume, and speed control features.
- Implemented comprehensive audio controls including playback speed, improving cross-device compatibility by 45%.
- Utilized HTML, CSS, JavaScript, and React to create an intuitive and visually appealing interface.

## PERSONAL PROJECTS

### DwarajTrip - Live | *MERN Stack, Express.js, React.js, Node.js, TypeScript, Tailwind CSS* March 2025 - July 2025

- Built travel booking platform using MERN stack with hotel booking, package booking, and automated email notification system.
- Developed responsive React.js frontend with TypeScript, Tailwind CSS, and Express.js RESTful API integration.
- Designed custom logo, preloader animations, cross-browser compatibility, and deployed production-ready web application with mobile-responsive design.

### Gemini-Chatbot Website - Live | *HTML5, CSS3, JavaScript, React.js, Google Gemini API*

March 2024

- Developed an interactive chat bot using React.js and integrated it with the Google Gemini API.
- Implemented real-time conversation, search functionality, and categorized responses.
- Utilized RESTful APIs to fetch and display dynamic chat responses.
